this edited collection draws together a group of international scholars and artist practitioners who offer a critical introduction and exploration of pierre bourdieu s generative conceptual tools for advancing sociological views of music education the volume includes research perspectives and studies of how bourdieu s tools have been applied in industry and educational contexts including the primary secondary and higher music education sectors beginning with an introduction to bourdieu s contribution to theory and methodology it goes on to deal in detail with illustrative substantive studies the concluding chapter critiques the application of his work and examines the ways in which the studies contained in the volume advance understanding

music schools in changing societies addresses the need to understand instrumental and vocal pedagogy beyond the individual sphere of teacher student

interactions and psychological phenomena focusing instead on the wider sociocultural spatial and institutional contexts of music education viewing music education through the perspective of collaboration the book focuses on the context of european music schools which have developed a central role in publicly funded educational and cultural systems the authors demonstrate that multilevel collaboration is a vital part of how music educators and the schools where they work can respond to wider societal concerns in ways that improve educational quality presenting examples of innovative practices and collaborative settings from twelve european countries this book offers new and inspiring perspectives on how music schools can support the transformation towards collaborative professionalism in instrumental and vocal music education with contributions from a wide range of researchers and professional educators the book shows how a collaborative approach to music education can address major policy issues such as inclusion democracy and sustainability addressing current institutional and curricular challenges music schools in changing societies presents a unique outlook on how music schools in contemporary societies can survive and thrive in times of change

it has been over 20 years since i released the first volume of 100 ultimate blues riffs for piano keyboards in 1996 my most popular selling book one of the constants has been the continued popularity of my blues music instructional books for not only piano keyboards but also saxophone flute and guitar with developments in music software faster internet download speeds for downloading mp3 audio files over 5 hours of downloadable audio backing tracks for this book i felt it was time to author a 2nd volume that uses newer software for improved sound quality also it is the 50th anniversary since i started to learn to play blues piano in 1968 i remember the wonderful feeling i had when i started to learn from the first two blues piano books i bought from a music shop along the charing cross road in london i still have both books just blues a compilation of blues jazz and boogie woogie songs and how to play blues piano by junior mance i have again created 100 blues riffs with many of them having elements of rock funk country jazz boogie woogie gospel and latin styles the riffs are in the order that i composed them giving you the learner an element of surprise as to what the next riff is going to sound like each of the 100 riffs have been recorded twice the 1st time the piano part with a rhythm backing track and the 2nd time a rhythm backing track to practice playing along with i have also created a separate play a long track that consists of 10 choruses of the 12 bar blues progression i would hope that you will use each riff to build your own blues song through the 12 bar blues progression

new york city has long been a generative nexus for the transnational latin music scene currently there is no other place in the americas where such large numbers of people from throughout the caribbean come together to make music in this book benjamin lapidus seeks to recognize all of those musicians under one mighty musical sound especially those who have historically gone unnoticed based on archival research oral histories interviews and musicological analysis lapidus examines how interethnic collaboration among musicians composers dancers instrument builders and music teachers in new york city set a standard for the study creation performance and innovation of latin music musicians specializing in spanish caribbean music in new york cultivated a sound that was grounded in tradition including classical jazz and spanish caribbean folkloric music for the first time lapidus studies this sound in detail and in its context he offers a fresh

understanding of how musicians made and formally transmitted spanish caribbean popular music in new york city from 1940 to 1990 without diminishing the historical facts of segregation and racism the musicians experienced lapidus treats music as a unifying force by giving recognition to those musicians who helped bridge the gap between cultural and musical backgrounds he recognizes the impact of entire ethnic groups who helped change music in new york the study of these individual musicians through interviews and musical transcriptions helps to characterize the specific and identifiable new york city latin music aesthetic that has come to be emulated internationally

it has never been easier or more fun for students to compose improvise arrange and produce music than with today s technology perfect for pre or in service music educators using technology to unlock musical creativity offers both a pedagogical framework and a description of the technology tools for engaging students in creative musical projects

the 4th edition of the handbook of research on educational communications and technology expands upon the previous 3 versions providing a comprehensive update on research pertaining to new and emerging educational technologies chapters that are no longer pertinent have been eliminated in this edition with most chapters being completely rewritten expanded and updated additionally new chapters pertaining to research methodologies in educational technology have been added due to expressed reader interest each chapter now contains an extensive literature review documenting and explaining the most recent outstanding research including major findings and methodologies employed the handbook authors continue to be international leaders in their respective fields the list is cross disciplinary by design and great effort was taken to invite authors outside of the traditional instructional design and technology community
